Don't Shed Your Tears for Anyone Who Lives on These Streets Aug 16 2022 Pinerolo, Italy. April 1945. At a fascist conference, a writer disappears and is found dead at the bottom of a cliff. Thirty years later, a young man—a political activist or maybe a terrorist—interviews the survivors to try to uncover the truth about what happened and its consequences. Who was this writer? What did he believe in? Why, shortly before his death, did he save a man who could have killed him? Where is his lost work? And what does any of this have to do with a teenager in contemporary Milan involved in a violent confrontation with the police? Bold and incisive, *Don't Shed Your Tears for Anyone Who Lives on These Streets* is a gripping examination of art-as-politics and politics-as-crime.

Peace in the Streets May 01 2021 The author tells about his one-year experiment teaching gang members from South Central Los Angeles in a one-room schoolhouse in 1982; and shares his experiences with gangs on the Salt River Reservation, Arizona, where the community takes a very different response to the problem of gang violence.

Don't Shoot Nov 07 2021 Gang- and drug-related inner-city violence, with its attendant epidemic of incarceration, is the defining crime problem in our country. In some neighborhoods in America, one out of every two hundred young black men is shot to death every year, and few initiatives of government and law enforcement have made much difference. But when David Kennedy, a self-taught and then-unknown criminologist, engineered the "Boston Miracle" in the mid-1990s, he pointed the way toward what few had imagined: a solution. *Don't Shoot* tells the story of Kennedy's long journey. Riding with beat cops, hanging with gang members, and stoop-sitting with grandmothers, Kennedy found that all parties misunderstood each other, caught in a spiral of racialized anger and distrust. He envisioned an approach in which everyone—gang members, cops, and community members—comes together in what is essentially a huge intervention. Offenders are told that the violence must stop, that even the cops want them to stay alive and out of prison, and that even their families support swift law enforcement if the violence continues. In city after city, the same miracle has followed: violence plummets, drug markets dry up, and the relationship between the police and the community is reset. This is a landmark book, chronicling a paradigm shift in how we address one of America's most shameful social problems. A riveting, page-turning read, it combines the street vérité of *The Wire*, the social science of *Gang Leader for a Day*, and the moral urgency and personal journey of *Fist Stick Knife Gun*. But unlike anybody else, Kennedy shows that there could be an end in sight.

The Streets Are Talking to Me Dec 28 2020 This sophisticated book presents new theoretical and analytical insights into the momentous events in the Arab world that began in 2011 and, more importantly, into life and politics in the aftermath of these events. Focusing on the qualities of the sensory world, Maria Frederika Malmström explores the dramatic differences after the Egyptian revolution and their implications for society—the lack of sound in the floating landscape of Cairo after the ouster of President Mohamed Morsi, the role of material things in the sit-ins of 2013, the military evocation of masculinities (and the destruction of alternative ones), and how people experience pain, rage, disgust, euphoria, and passion in the body. While focused primarily on changes unfolding in Egypt, this study also investigates how materiality and affect provide new possibilities for examining societies in transition. A book of rare honesty and vulnerability, *The Streets Are Talking to Me* is a brilliant, unconventional, and self-conscious ethnography of the space where affect, material life, violence, political crisis, and masculinities meet one another.
